

## TITLETOWN DRONES LLC

YOUR LEADER IN DRONE  
TECHNOLOGY

# THANK YOU FOR CHOOSING TITLETOWN DRONES

My name is Bill Bongle,  
owner and founder of  
Titletown Drones. My  
company is the largest  
public safety drone dealer  
in Wisconsin and the only  
one owned by a retired  
police officer.

## TITLETOWN DRONES LLC

# About

You have many choices where to buy drone equipment and it can be difficult to decide who to trust. I hope to earn your trust and convince you that my company, Titletown Drones, is the best choice for you and your agency.

I am a 30-year police veteran, retiring as captain from the Green Bay Police Department in 2015. As I neared my retirement, I recognized drones as an emerging technology with important public safety and life-saving applications. That was my inspiration to start my own business, Titletown Drones.

## COMPANY PROFILE

I founded Titletown Drones in 2015. Since then my company and has experienced significant growth each year. I am based in NE Wisconsin, just north of Green Bay. As a retired law enforcement officer, I understand the importance of what you do. I'm dedicated to supporting your mission and making sure I provide you first class customer service. I've outlined 4 reasons why I hope you will consider purchasing your equipment from Titletown Drones.

## **1. Supporting Government Agencies**

---

During my police career I managed budgets and purchased equipment. This experience has helped me to understand the processes government agencies must follow. This experience will help me provide you the information and support you need. I'll assist you with the budgeting and approval process by providing you detailed quotes. For your convenience, I offer NET 30 terms to government agencies.

## **2. Competitive Pricing**

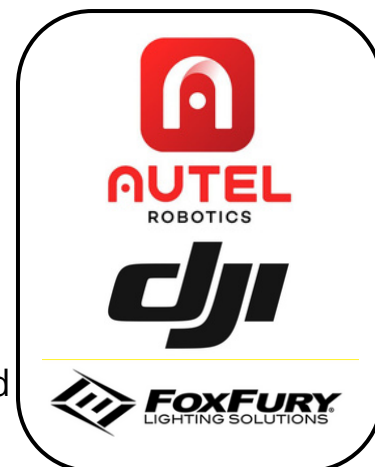

---

Most major manufacturers have established universal pricing which means you will receive the same pricing whether you purchase from a large, big box retailer or a smaller business like mine. As a small business owner I can offer more personal, responsive service.

## **3. Availability and Brands You Can Trust**

---

I am affiliated with three of the largest drone suppliers in the United States. This means I have access to the latest technology. I carry drones, accessories and lighting and equipment from the major manufacturers such as Autel Robotics, DJI and Fox Fury Lighting. I stock important consumable items such as batteries and propellers. I offer this vital service to keep your fleet in operation. In-stock items ship within 24 hours on business days and expedited shipping is available upon request.

## **4. Outstanding Customer Support**

---

In order to provide you the best possible service I stay up to date with product training. I have nearly 20 years of experience with drones and related technology. I own and train on the equipment I sell. This means I am knowledgeable about these products and will respond to your questions. If your equipment is damaged or defective, I will assist you in obtaining prompt repair services. If you are not receiving satisfactory service, I will work with you to track and expedite your repair.
